MONEY, BONDS AND STOCKS,

The Dullest Day Known in New York for Some Time-Active Stocks Higher. NEW YORK, Nov. 1 -- Money on call was

sy at 2@3 per cent, the last loan being made at 24, closing offered at 24 per cent. Prime mercantile paper, 47 @7 per cent. Sterling exchange was duil but steady at

\$4.84 for 60-day bills and \$4.874 for demand. The total sales of stocks to-day were 128,309 shares, including the following: Delaware, Lackawanna & Western, 5,500; Lake Shore, 3,335; Missouri Pacific, 9,936; Northwestern, 3,310; New York Central, 4,080; Reading, 27,300; Richmond & West Point, 16,145; St. Paul, 5,075; Union Pacific, 7,740; Western Union, 4,835.

To-day's stock market was the dullest for some time, but in the absence of any pressure to sell prices took their natural course, and the result was a firm to strong market from opening to close. The holiday in London had much to do with the decrease in the amount of business done, but there was a great indisposition to operate pending the election, which is fast becoming the principal subject of conversation upon the street, and even the traders did next to nothing. There was considerable animation in a faw stocks, however, and they generally showed most strength and closed with material gains over last night's prices. Missouri Pacific ras again conspicuous for strength, and its advance was aided by the reports that reces in that section were being rapidly restored and an era of good feeling between the roads being inaugurated. Reading was the leading feature of the day, and the late assertions about the non-payment of the uterest upon the incomes had less effect, while reports from Philadelphia, that the road would show a large surplus over interest charges, gave it a buoyant tone at times. Its strength was they all moved up handsomely, especially Jer-tey Central. New England occupied a very subordinate position in the market until late in the day, when it became more active and advanced sharply with the rest of the list, though there was nothing new in regard to the property. Of the remainder there was little to say, except that Union Pacific was quiet but firm. In the unlisted department Cotton Oil was very active and decidedly strong, and San Francisco also moved rapidly on a small business. The active list is invariably higher this evening, and San Francisco preferred rose 21; Missouri Pacific, 14; Reading and Jersey Central, each, 12; New England. 1 per cent, and others fractional

The railroad bond market shared the duliness of the share list, but failed to respond to its etrength. The tone was firm throughout, and the majority of issues traded in are higher this evening. The sales were only \$994,000, and no especial animation was noticeable, except in Reading and Texas Pacific bonds. The principal gains include Tennessee divisionals fives, 3, to 110. A feature of the dealings was the further drop in St. Louis, Arkansas & Texas

firsts, which lost 2½, at 892.
Government bonds were dull and steady. State bonds were dull and steady. Closing

CHICAGO, Nov. 1 .- Wheat ruled heavy and lower to day, with more disposition to realize. The early action created a fear that some "long" wheat was coming on the market, and besides the general news was perhaps a little more bearish, though this did not in itself signify a lower market. About 500,000 bushels of wh eat were delivered on November contracts. The duliness in flour is also having some effect, and talk of wheat being brought from New Orleans to St. Louis and the almost total absence of export movement from the seaboard, were the reasons given for the heavy iseling. Receipts, too, are increasing some, and the predicted falling off in the receipts did not materialize. Instead, the arrivals show some increase. Altogether the influences were not favorable to the "bull" interest. Considerable selling was credited to the Northwest, especially toward the close. Opening prices were about † @le lower, and declined for May to a point 2 je below yesterday's closing figures, then rallied ic, but renewed selling and heavy markets eisewhere effected a further decline of 2%c, the closing being about 4% lower than yesterday. The stock of contract wheat at the principal points of accumulation is 56 per cent. against 76 per cent. one year ago. Corn was quiet most of the session, though at times trading was quite active. The feeling prevailing was easy in the near futures, while the more deforred deliveries exhibited considerable strength. Opening sales were a shade higher than the closing prices of yesterday, the volume of business was fair aud fluctuations frequent, the market closing lic lower for November and November contracts were reported as not being large, receivers sending out moderate quantities, most of which went to a large local holder. In oats, aside from fair trading in May delivery, the spec-ulative market exhibited little life, but at the same time a steady market was quotable, as values were not subject to any material change. Mess pork was moderately active at irregular prices, with the interest centered in January delivery. Opening sales were made at 30 @ 35c advance, but later in the day the feeling was easier, and prices settled back 20@25c, and closed quiot. Trading was moderate in the lard market. There was some demand early, and prices advanced .024 st .05c, but later the feeling was easy, and prices declined . 10 & . 12 je, and the market closed quiet. In short ribs a fair trade was reported, chiefly in January and May contracts. Prices ruled .05 0.07 to higher early in the day, but the advance was lost. The leading

MINNEAPOLIS, Nov. 1.—Wheat on the sample tables made a good showing both as to the amount displayed and the quality of the grain. Receipts were 410 cars, and the demand was not as active as on the preceding day. Increasing receipts are reported in the country, and talk of shutting down mills is still current. Sellers were holding at yesterday's prices, and first sales were at about these prices, though a weaker tone developed later, and the prospect of carrying over large supplies prompted sellers to offer concessions. Some orders from outside millers were taking a little wheat, but city millers were doing little. Shipments were 69 cars. This was delivery day in the month, and trading in futures pened late. The deliveries were fair, but to that extent that they became burdensome. INDIANAPOLIS MARKETS.

Trade Nearly at a Stand-Still, Owing to the Interest Taken in Politics. INDIANAPOLIS, Nov. 1.

The month opens with trade very flat, everybody seeming to take more interest in politics than in business. With the quiet trade fluctuations in values are few. Coffees and sugars were weak in tone while other staple articles in the grocery line rule firm and steady. In the produce market a little more life is noticeable than in other branches of trafic. Both eggs and butter are strong in tone and higher prices are indicated. Poultry, on very large arrivals, rules a little weak, but if the weather was cooler the market, doubtless, would be firmer. Fruits and vegetables continue to arrive freely and prices rule weak. A very fine quality of potatoes is selling at 40 cents per bushel from the ear, and choice apples at the same figure. Picked apples, for laying by, rule somewhat higher. The supply of lemons is light, and so is the demand. Oranges are arriving in larger quantities, and while prices are unchanged, the impression prevails that next week they will range somewhat lower. The provision market is weak. at the revised quotations of Wednesday. The wool market, as yet, shows no signs of improvement, but before the middle of the present month a better demand and possibly better prices may be established. Other markets are

GRAIN. The local market presented no new features. There was only a fair attendance on 'Change, and bidding, except for immediate delivery, was tame. The Indianapolis Market Report, in com-

Keep Accounts.

It is impossible for farm neighbors to get along without having dealings with each other which at some time require settlement. This is especially true where there is but one man on the farm, as is the case on about half the forms in most sections of the West. Settling with neighbors is a trying ordeal with a sensitive man if prices have not been positively

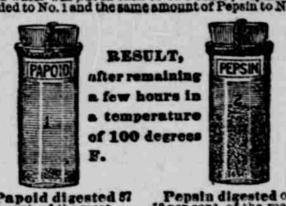

J. M. M., in New York Tribune.

been kept, because few persons are good temnered and resonable enough under these circumstances to settle to the satisfaction of all concerned. If one can afford, and has the disposition, to lend a neighbor his farm implements, to give him a portion of his time or his farm products, it is kind and generous to do so. However, as time, farm produce and implements are money in another form, it is not mean nor small-as it is sometimes considered-for the owner to ask a price for any of these things, and to keep a strict account of his outgoes in these directions. By coming to a positive agreement at the time of a transaction, and by keeping a strict account of it, a better feeling will be preserved between neighbors on a much surer basis than by letting things run, then guessing at the amount due one way or the other. Another important point is not to allow even written accounts to run too long. Better make it a rule to balance such papers at stated periods, as short as may be conveniently arranged. Accidents might happen to accounte, or changes take place-whereof no man may keep account. Try these suggestions, good neighbors, and report

An Interesting Test Of Digestive Power.

Professor P. Finkler recently reports, in the Phila-pelphia Therapeutic Gasette, laboratory tests show-ing the comparative digestive power of Papoid and Pepsin as follows: A certain amount of raw meat and water was put in each of two tubes; Papoid was added to No. 1 and the same amount of Pepsin to No.2

Papoid digested 87 Pepsin digested only per cent. of the meat. 18 per cent. of the meat. Papoid is made from the fruit of the South American Papah tree, Pepsin from the stomach of hogs.
